PROFESSIONAL SUMMARY

Detail-oriented Computer Science student and aspiring **Web Development Intern** with a strong foundation in building modern, responsive web applications. Proficient in HTML, CSS, JavaScript, and modern frameworks including React and Next.js. Experienced in connecting frontends with backend APIs, translating Figma/UI designs into interactive web pages, and utilizing Git/GitHub for version control. A highly responsible, self-driven developer with **strong written and verbal communication in English**, equipped with robust debugging and stakeholder communication skills, eager to bring technical expertise and a passion for continuous learning to the dynamic team at **6sense HQ Limited**.

EDUCATION

B.Sc. in Computer Science and Engineering — BRAC University

CGPA: 3.76 / 4.00

Jun 2022 – May 2026

TECHNICAL SKILLS

Frontend:	HTML, CSS, JavaScript (ES6), React, Next.js, Tailwind CSS, Responsive Web Design.
Backend & APIs:	RESTful APIs, Node.js, Express.js, Auth.js.
Database:	MongoDB, MySQL.
Tools & Deployment:	Figma, Figma to UI Translation, Git, GitHub, Vercel, Vite, Web Debugging Tools.
Core Fundamentals:	Data Structures, Algorithms, Object-Oriented Programming (OOP), Database Management Systems (DBMS).

PROJECTS

BRACU Volunteer Hub (Full Stack Application) | React, Node.js, Express.js, MongoDB, REST APIs

2025

github.com/mddaf/bracu-volunteer-hub

- Developed a scalable full-stack web application connecting a separate React frontend with a Node.js/Express backend via RESTful APIs, supporting **5+ distinct user roles** with secure role-based access control.
- Implemented dynamic data rendering and responsive UI principles, ensuring a consistent experience across **3+ device breakpoints**.
- Designed a modular architecture with robust data persistence using MongoDB, enabling reliable volunteer data management across the platform.

BUCC Day Long Tour Event Registration App | React, TypeScript, Vercel, Responsive Design

2025

github.com/mddaf/BUCC_Day_Long_Tour

- Developed an interactive event registration application using React and TypeScript, processing **100+ registrations** with zero runtime errors achieved through strict type safety.
- Built a clean, mobile-first responsive UI translating modern design principles into a seamless experience across all screen sizes.
- Successfully deployed and maintained on Vercel via GitHub, delivering the complete application within a **2-week development timeline**.

Peddy - Pet Adoption Web Application | JavaScript (ES6), Fetch API, HTML, CSS

Oct 2024

github.com/mddaf/pet-adoption

- Built a responsive web platform utilizing the Fetch API for dynamic data loading, reducing manual page reloads to zero and improving user flow across **4+ layout breakpoints**.
- Utilized modern ES6 features to deliver a clean, performant interface applying strong responsive web design principles.

Interior Design Landing Page (Rinterio) | Tailwind CSS, UI/UX Translation

2024

github.com/mddaf/rinterio-tailwind

- Translated Figma design concepts into a highly responsive landing page using Tailwind CSS, achieving **pixel-perfect UI fidelity** with a custom design system.
- Implemented interactive forms and mobile-first navigation elements, optimized across 3 major viewport sizes for an enhanced user experience.

LEADERSHIP & EXPERIENCE

Director of Finance, BRAC University Computer Club (BUCC)

Feb 2026 – Present

- Overseeing financial planning, budgeting, and resource allocation for one of BRAC University's leading technical clubs, demonstrating strong responsibility and cross-team communication.

CERTIFICATIONS & ACHIEVEMENTS

Agent X Certified AI + Prompt Engineer Level 1	Jul 2025
The Bronze Standard — The Duke of Edinburgh's International	Oct 2023
Award Verified Basic JavaScript Developer & 5-Star Badges — HackerRank	Aug 2023
52nd Position — Intra BRAC University Programming Contest	Sep 2022
